Description

Allows use of a single payment system, Executive Masters, as changegiver, cashless systems, etc. ... on machines that can't be mounted in a master / slave configuration because they are all master.

In a configuration with three master machines, need to use three payment systems (one for each machine), or need to use vending machine of same manufacturer that were built work in master / slave configuration.

With Exellion this is no longer necessary and the credit held in the payment system will be available on all machines connected to the Exellion system.

Characteristic

Microprocessor board to manage and share the executive protocol up to three machine executive master.

Technical characteristics	
Box dimension (btxhxp) (mm)	80 x 54 x 26
Power supply	24 Vac +/- 10%
power consumption	Max 3W
Operating temperature (°C)	-0 +50
Master+Slave cable	N. 1 - 100 cm
Slave cable	N. 2 - 3500 cm

Features

Permit to share a single executive payment system (change giver or cashless) up to three executive master.

You can have many benefits :

- ✘ save two payment systems
- ✘ audit collection from one single device
- ✘ purchase of only a single armored case for external use
- ✘ use with price in VM or in price holding
